

## VUETRADE ULTRA HEAVY DUTY ANGLES

### Application

VUETRADE Ultra Heavy Duty Angles are suitable for a variety of applications.

### Specification

VUETRADE Ultra Heavy Duty Angles are manufactured from 2 mm thick stainless steel 304 plate bent at 90° to suit a wide range of applications. The SS304 material provides excellent corrosion protection to accommodate for application where higher risk of corrosion is present.

Commonly used to joint timbers at right angles. This bracket can also be used at stairs or heavy duty support brackets.

### Fasteners

Fasten all screw holes with 6 of Stainless Steel Type 17 12g x 35mm screws; or with 5x Stainless Steel M12 bolts fasten to appropriate bolt holes.
